Memphis, Tennessee 38115-1511

Subject: Carrier Air Conditioning Superfund Site, Collierville, TN

Dear Mr. English:

As we previously discussed, the Carrier Corporation (Carrier) declined signing a Consent Decree but still wanted to perform the Remedial Design/Remedial Action (RD/RA) at the Carrier Site. EPA issued a Unilateral Administrative Order (UAO) on February 11, 1993 directing Carrier to perform the RD/RA described in the Record of Decision (ROD). Please find attached to this letter a copy of the UAO and Statement of Work.

EPA, EPA Consultants - Montana State University, and Carrier will be meeting on March 5 in the a.m. (the exact time TBA) at the Carrier facility in Collierville to finalize the Data Quality Objectives (DQOs). Topics to be discussed include additional monitoring well(s), possible additional extraction wells and if time permits, how to confirm soil performance standards have been met. We would appreciate your attendance at this meeting if possible.

Please call me at (404) 347-7791 if you have any questions.

Sincerely,

A handwritten signature in cursive script, appearing to read "Beth Brown".
